Executive Summary

Motivated and detail-oriented Computer Science undergraduate aiming to become a Data Scientist, with a strong foundation in Data Science, Artificial Intelligence, and full-stack web development. Passionate about developing impactful AI-driven solutions using deep learning, predictive analytics, and real-world data. Experienced in data wrangling and visualization using Python and Java, with exposure to machine learning libraries such as TensorFlow and OpenCV. Deeply interested in algorithms, probability, statistical modeling, and learning theory, with a focus on transforming raw data into meaningful insights for informed decision-making.

Education

Panimalar Engineering College, Chennai
B.E in Computer Science and Engineering

Batch: 2023 – 2027 | CGPA: 8.65 (till date)

K.C.Sankaralinga Nadar Hr,Sec,School, Chennai
12th standard

Batch: 2022 – 2023 | 87.1666667%

K.C.Sankaralinga Nadar Hr,Sec,School, Chennai
10th standard

Batch: 2020 – 2021 |

Technical skills

- **Languages:** Python, Java
- **AI/ML tools & libraries:** TensorFlow, OpenCV, CNN, NumPy, Pandas, PyTorch, Matplotlib, Scikit-Learn
- **Visualization & data handling:** Seaborn, Excel, Jupyter Notebook, Google Colab, Azure AI
- **Web development:** HTML, CSS, JavaScript
- **Tools & platforms:** Git, VS Code, Google Colab, Azure AI
- **Interpersonal Skills :** Effective communication, Team collaboration, Adaptability, Conflict Resolution, Critical thinking

Certifications

- Oracle Cloud Infrastructure & Generative AI Foundations (2024)
- Oracle Cloud Infrastructure Data Science (2025)
- HTML, CSS, and JavaScript – Infosys Springboard (2025)
- Acquiring Data Course – NASSCOM FutureSkills Prime. (2024)
- NPTEL – Machine learning (2025)
- Infosys – Artificial Intelligence premier certification
- Coursera – what is Data Science
- Gen AI Academy Certifications
- hp life – Data Science and Analytics

Projects and Internships

Projects

Fake vs Real Image Classifier

- Built a CNN-based deep learning model to classify AI-generated computer vision vs real human images. capable of mimicking human perception.
- Achieved over 95% validation accuracy using TensorFlow, OpenCV, Scikit-Learn.

AI-Based Blood Analysis (Ongoing)

- Building an AI tool for analyzing blood reports using predictive modeling and classification techniques.

Student Dropout Prediction App (SIH Project)

- Developed a full-stack web app to monitor student performance and alert teachers to at-risk students.
- Integrated with AWS SNS for SMS alerts, used Node.js backend and MongoDB based on software engineering practices.

Internships

Software Intern

Relyon Softech Ltd. | Offline

Contributed to the development of payroll application modules, gaining practical experience in enterprise workflows and understanding backend business logic in real-world systems.

June 17, 2024 – June 22, 2024

Web Developer Intern | Virtual

Codetech IT Solutions | Remote

Developed a To-Do web application and collaboratively worked on a social media platform as part of a development team. Applied debugging techniques and frontend-backend integration strategies to ensure robust and reliable functionality.

September 2024 – October 2024

AI Intern

Edunet Foundation (in collaboration with AICTE & Microsoft) | Virtual

Completed multiple Azure AI projects and a capstone project under expert mentorship. Acquired hands-on experience in cleaning and analyzing large datasets, and worked on enterprise workflows using cloud platforms such as Google Cloud. Focused on intelligent systems development, data science pipelines, and framework implementation in real-world AI scenarios.

May 2025 – June 2025

Achievements

- Smart India Hackathon (SIH): Selected for national-level competition.
- 1st Prize, SRM Hackathon: Awarded for best solution in tech innovation.
- Neuroxion Hackathon: Finalist of campus-based AI problem-solving.

co-curricular activities

- 2nd prize holder in javelin throw
- 2nd prize holder in hand writing competition
- Secured the overall 2nd highest mark in English at the school level.
- participated in National Drawing Contest
- participated and successfully completed School Innovation Development Project (SIDP) held by Tamil Nadu Government in- (2022-2023)
- participated in badminton competition

personal details
